Cataloguers Note: It is with considerable pride that we offer the following collection of coins. It has been many years since such a complete type set of German and German Colonial coins have been offered. It is especially noteworthy because of the superb condition of all of the coins. We have endeavored to furnish the collector with all standard reference numbers. All Davenport numbers are prefixed by D. All Raymond: Coins of the World numbers by C. W. The reverses are all alike consisting of the arms of the Imperial Eagle, date and value. Therefore, only the obverses will be described. Also included is a small but choice selection of Foreign Crowns.
